SUMMARY

A motivated engineering graduate eager to contribute to a forward-thinking organization by applying technical skills and collaborating on meaningful projects to drive professional growth.

SKILLS

Languages: C, Python, JavaScript, ReactJs, NextJs.

Technologies: Git, GitHub, Adobe Photoshop, Illustrator.

EDUCATION

May 2022	**Seventhday-Adventist Matric Higher Secondary School** Secondary and Higher Secondary	**Madurai**
Nov 2022 - Present	**KIT - KalaignarKarunanidhi Institute of Technology** Bachelor's Degree - Artificial Intelligence and Data Science	**Coimbatore**

PROJECTS

Python	**CellSaver**	**github.com/DharuNamikaze/CellSaver**

Created an app that informs users about their battery's wear level, helping them manage performance to prevent excessive battery drain. Provides insights for maintaining laptop battery health.

React.js	**SmartPick**	**github.com/DharuNamikaze/SmartPick**

Developed a chatbot that recommends personalized tech products based on user prompts for budget and specific needs. Provides targeted product suggestions to users' tech-buying decisions.

Next.js	**typeD**	**github.com/DharuNamikaze/typeD**

A minimalistic typing test inspired by Monkeytype, focusing on simplicity and user-friendly design for enhancing typing speed and accuracy

Next.js	**Portfolio**	**github.com/DharuNamikaze/portfolio**

Simple Personal portfolio showcasing projects and skills

EXPERIENCE

Feb 2023	**Implant Training**	**Appin Technologies, Coimbatore**

- Learned to create Power BI dashboard to transform datasets into clear insights. Designed visualizations to analyze trends based on real-time data.

July 2023	**Internship**	**Codebind Technologies, Coimbatore**

- Enhanced web development skills by working on hands-on projects, focusing on building responsive interfaces, optimizing user experiences, and learned frameworks.

2022-Present	**Achievements**	

- Participated in 24-hour hackathons (4 times) organized by KIT, CBE.
- Secured 3rd place in Code Debugging at AIT, CBE.
- Solved 190+ problems on CodeChef.
- Active problem solver on LeetCode.
